

CA Office *Pro*

Smart Strategy, Enhanced Performance.

DigiEn CA Office^{Pro} offers to assist Chartered Accountants in their daily jobs. It provides facility to plan, manage & track all the tasks done by the CAs & their army. It has easy to understand process & user friendly interface. The solution is extended not just to manage the tasks but also to manage the business.

Using DigiEn CA Office^{Pro}, plan the tasks to be carried out daily all year long at once and keep on tracking the smooth process then on. Each employee knows exactly on which day what she has to work on. No more sending reports at the end of the day as progress of organization is available in real-time. And get informed about important development as soon as it happens.

This makes analysis of organization's growth easily available. Detailed, pin-pointing & informative outcomes of the work done by the organization are available at any time. And most importantly convert this progress into financial incomes for the company.

In all, a specific tool to manage the CA business is much required today than just an accounting tool to write accounts of the clients. CAs need to fine-tune their operations with just a little help of the technology. An all-time available, real-time data of the job will be far much advantageous. Well planned, managed & tracked business always sees the upward trajectory. DigiEn will always be delighted to be part of the ever-progressing industry.
